

HEALTHCARE-ASSOCIATED INFECTION (HAI) MODULE Part One

Laboratory-identified Event (LabID) Module for Long-Term Care Facilities (LTCFs): *Clostridioides difficile* Infection (CDI) Overview

Date: October 2022

Presenter: Ti McCray, BSHA, MPH,

Leidos, Inc (Contractor)
Infection Preventionist

NCEZID, Division of Healthcare Quality Promotion

(DHQP)/Surveillance Branch

Centers for Disease Control and Prevention

Learning Objectives

- Demonstrate an understanding of Laboratory-identified (LabID) Event surveillance and reporting requirements for NHSN.
- Explain Clostridioides difficile infection (CDI) definitions and protocols.
- Define required monthly summary data for CDI reporting.
- Describe how to manually enter CDI LabID event data and monthly summary data into the NHSN application.

Surveillance and Reporting Rules for LabID Event Module

- Surveillance must occur for all resident care locations in the facility—referred to as facility-wide inpatient or FacWideIN.
- Must Submit ALL MDRO LabID events for all Specimen sources.

<u>AND</u>

- Specimens collected during a brief outpatient (OP) visit to an emergency department (ED) or clinic/physician's office if:
 - The resident returns to your facility on same calendar day of the OP visit or the following calendar day.

Note: There should be **no** change in **current** admission date.

Surveillance and Reporting Rules for LabID Event Module

- When submitting a LabID event for a specimen collected in an OP setting, the Resident Care Location and Primary Resident Service Type should reflect the resident's primary LTCF location and service type on the day of the outpatient visit.
- Do NOT report a LabID event for a specimen collected prior to the resident's admission to your facility.
- Results from positive isolates collected as part of active surveillance are excluded.
- There is not an option to perform surveillance on select or individual units/pods within the facility.

Monthly Participation Requirements

- A NHSN Monthly Reporting Plan must be completed for each calendar month in which a facility plans to enter data into the NHSN.
 - For MDRO surveillance, one or more MDROs must be selected from the Specific Organism Type drop-down menu.
 - LabID event surveillance must occur for the entire calendar month for the selected events/organisms.
- Submit ALL MDRO LabID events for <u>all</u> specimen sources to NHSN (numerator data).
- Summary Data For each participating month, the facility must report the required denominator data.
- Resolve "Alerts," if applicable.

Reporting Options Available in LabID Event Module

- I. Clostridioides difficile infection (CDI; C. difficile)
- II. Multi-drug Resistant Organism (MDRO)
 - A facility can choose to monitor one or more of the following organisms:
 - Staphylococcus aureus, methicillin-resistant (MRSA)
 - Staphylococcus aureus, methicillin-susceptible (MSSA) with MRSA surveillance
 - Vancomycin-Resistant Enterococcus spp. (VRE)
 - Cephalosporin-Resistant Klebsiella spp.(CephR-Klebsiella)
 - Carbapenem-Resistant Enterobacteriaceae (CRE)
 - Klebsiella spp. (CRE-Klebsiella)
 - E coli. (CRE-E coli)
 - Enterobacter (CRE-Enterobacter)
 - Multidrug-Resistant Acinetobacter spp. (MDR-Acinetobacter)

Clostridioides difficile infection (CDI) Key Terms and Definitions

Common Terms and Definitions used in LabID Event Module

- *C. difficile* positive laboratory assay: (1) An unformed/loose stool that tests positive for *C. difficile* toxin A and/or B, (includes molecular assays [PCR] and/or toxin assays); OR (2) A toxin-producing *C. difficile* organism detected in an unformed/loose stool by culture or other laboratory means.
- CDI Laboratory-identified (LabID) Event: C. Difficile positive laboratory assay collected while resident is under the care of the reporting LTCF. Includes residents physically housed and cared for in the reporting LTCF and residents being cared for during a brief outpatient visit in which the resident returns to the reporting LTCF on the day of the OP visit or the following calendar day.
- Facility-wide Inpatient (FacWideIN): All resident care locations in the facility.
- LabID Event Date: Specimen collection date.

What specimens should <u>NOT</u> be submitted to NHSN as a CDI LabID Event?

- Negative C. difficile laboratory assay lab results.
- Specimens collected during an <u>admission</u> in another healthcare facility.

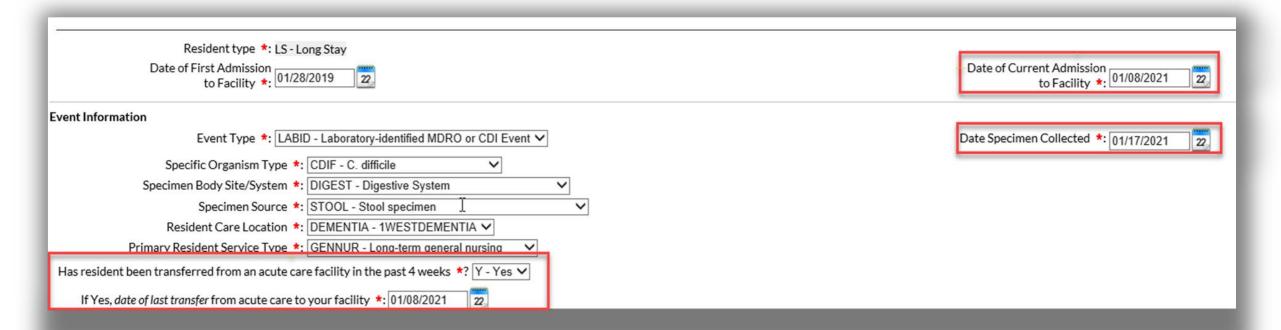

Categorization of CDI LabID Events

- NHSN will analyze data that have been entered into the application.
- Categorization applied by NHSN to CDI LabID events are based on the specimen collection date of the most recent CDI LabID event:
 - Duplicate CDI LabID event
 - Incident CDI LabID event
 - Recurrent CDI LabID event

Incident and Recurrent CDI LabID Events are further categorized based on:

- 1. Reported date of current admission to facility,
- 2. Reported specimen collection date (also referred to as date of event),
- 3. Reported date of last transfer from acute care to the reporting LTCF.
- Community-onset (CO) LabID events: Date specimen collected 3 calendar days or less after current admission to the facility (i.e., days 1, 2, or 3 of admission).
- Long-term Care Facility-onset (LO) LabID event: Date specimen collected greater than 3 calendar days after current admission date (i.e., on or after day 4).
 - LO Events are further sub-classified:
 - Acute Care Transfer-Long-term Care Facility-onset (ACT-LO): LTCF-onset (LO) LabID
 event with a specimen collection date of 4 weeks or less following date of last transfer
 from an acute care facility to the LTCF.

Categorization of CDI LabID Events is Dependent on Accurate Event Information

NHSN will Further Categorize CDI LabID Events Based on: date specimen collected and specimen collection date of the most recent CDI LabID Event entered into NHSN

- <u>Duplicate CDI LabID event</u>: Any CDI LabID event submitted for the same resident following a previous CDI LabID event within the past 2 weeks.
- Incident CDI LabID Event: Either the first CDI LabID event ever submitted for an individual resident in the facility, or a subsequent CDI LabID event submitted more than 56 days (8 weeks) after the most recent CDI LabID event reported for the individual resident.
- Recurrent CDI LabID Event: Any CDI LabID Event entered more than 14 days (2 weeks) and less that 57 days (8 weeks) after the most recent CDI LabID event submitted to NHSN for an individual resident.

National Healthcare Safety Network Line Listing - All CDI LabID Events As of: January 25, 2021 at 9:34 AM Date Paper All LTCI ADID EVENTS

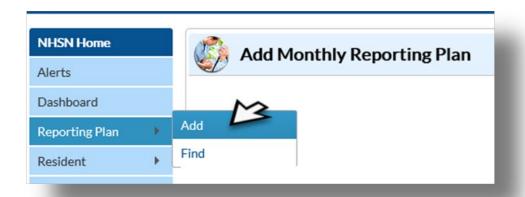

Facility Org ID	Resident ID	Date of Current Admission	Event ID	Event Date	Specific Organism	Specimen Source	Location	Transferred from Acute Care Facility in Past 4 Weeks?	CDI Assay	Onset	Onset Description	Days: Admit to Event	LabID Duplicate?

Let's Review!

Example: NHSN Classification of CDI Lab ID Events as Incident or Recurrent									
Resident ID	Current Admit Date	CDI Event Date (specimen collection date)	NHSN Categorization						
1111	09/01/2022	09/02/2022	Incident						
1111	09/01/2022	09/10/2022	Duplicate -no further categorization						
1111	09/01/2022	09/25/2022	Recurrent						
1111	09/01/2022	11/28/2022	Incident						

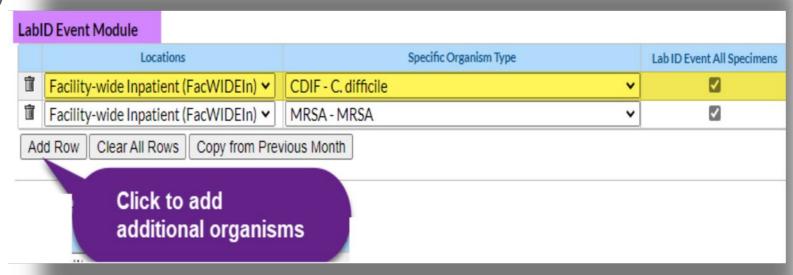

Submit CDI Monthly Reporting Plan for Every Month of Participation to NHSN

Add Monthly Reporting Plan for CDI LabID Event Module Participation

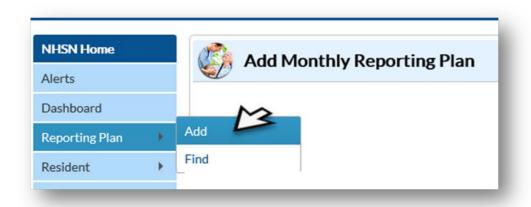

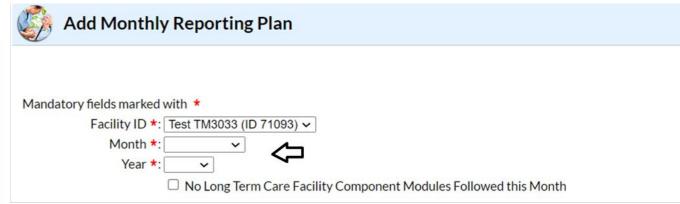

- Informs CDC-NHSN which module(s) and events a facility is following during a given month.
- A facility must enter a plan for every month in which surveillance and data submissions will occur.
- Plans may be entered for up to one year in advance.

- Facility-wide Inpatient (FACWIDEIN) is default location
- Select CDIF-C. difficile as the
 - Specific Organism Type
- LabID Event All Specimens is default

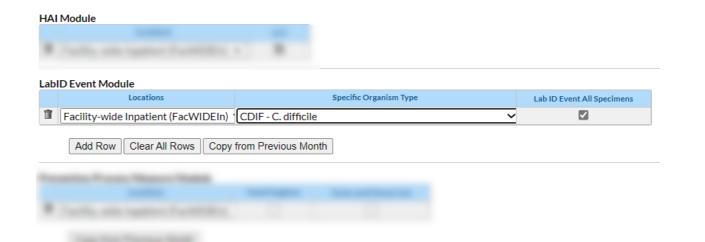

Add Monthly Reporting Plan for CDI LabID Event Module Participation

- Red asterisk = required to save page
- Click ADD ROW to add additional event options for the LabID Event Module
- SAVE

Submit CDI Event to NHSN

Reporting CDI LabID Event:

Customizable NHSN LabID Event form available for data collection

- Optional form
- Allows users to collect required information prior to submitting NHSN event
- Use one form for each LabID event.
- Form may be customized for each facility
- Use accompanying Table of Instructions for helpful guidance

Form Approved MB No. 0920-0666 Exp. Date: 12/31/22 www.cdc.gov/nhsn

Laboratory-identified MDRO or CDI Event for LTCF Form 57.138 (cdc.gov)

Submitting a CDI LabID Event to NHSN

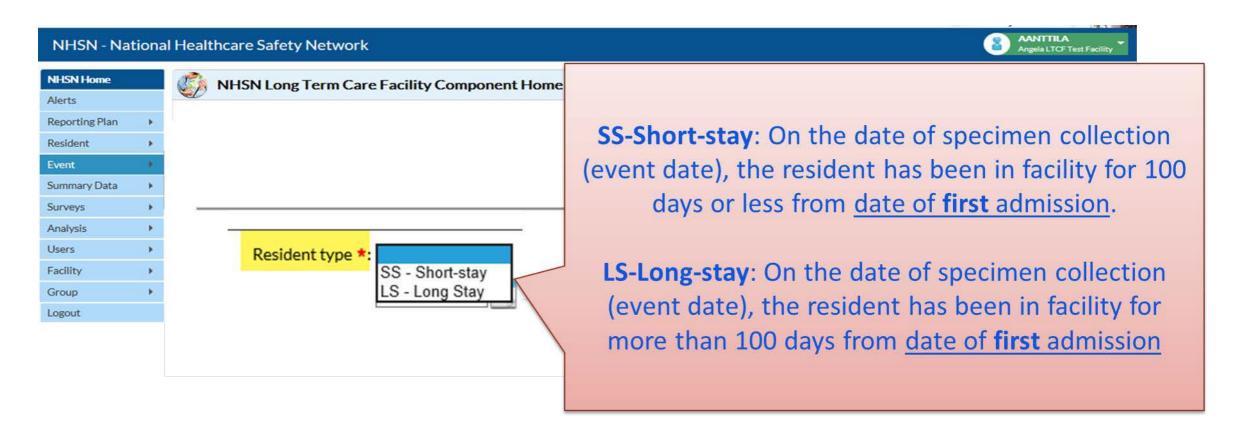

Red asterisk = required to save page

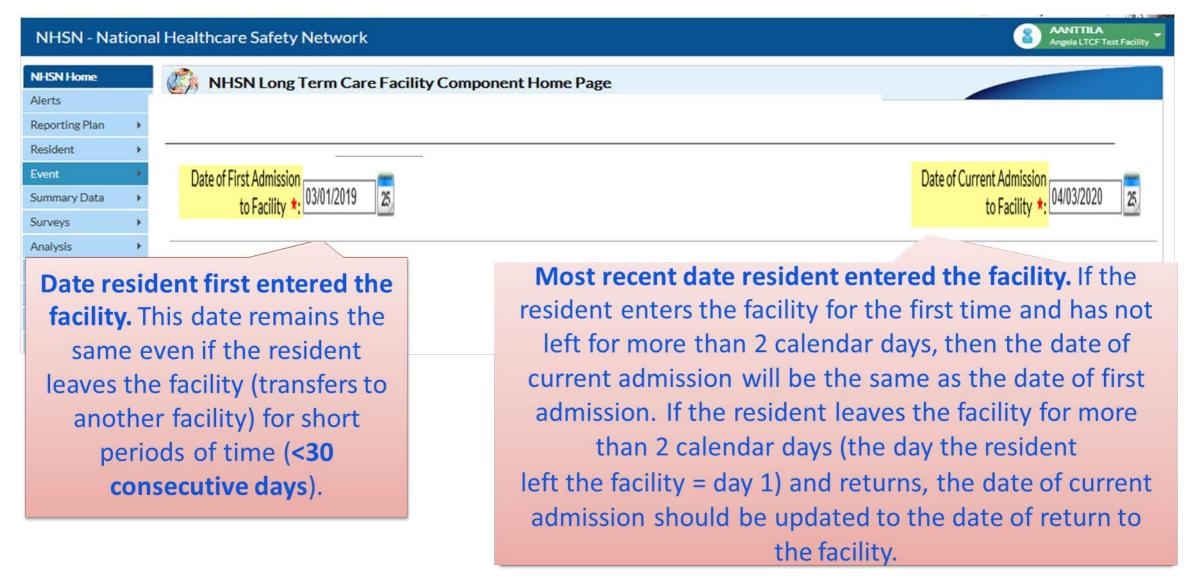

Submitting a CDI LabID Event to NHSN: Resident Type

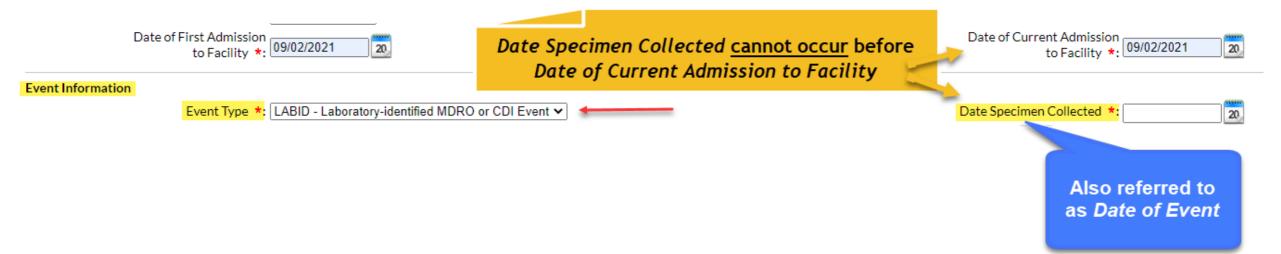

Auto-populated by NHSN as short stay or long-stay after user enters the *Date of First* Admission to the Facility and the *Date Specimen Collected* (specifically for LabID events).

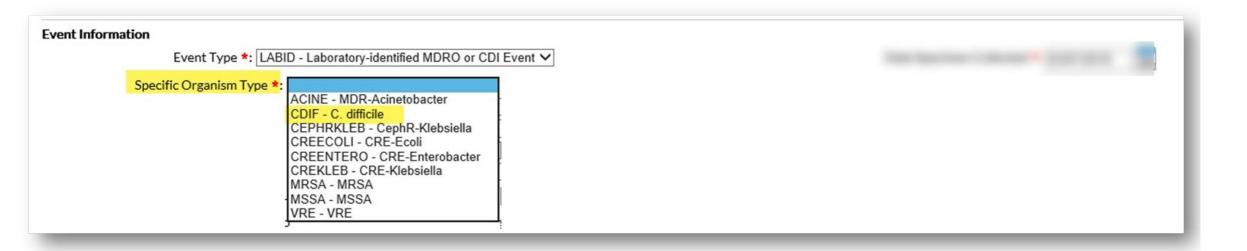

Submitting a CDI LabID Event to NHSN: Date of First and Current Admission to Facility

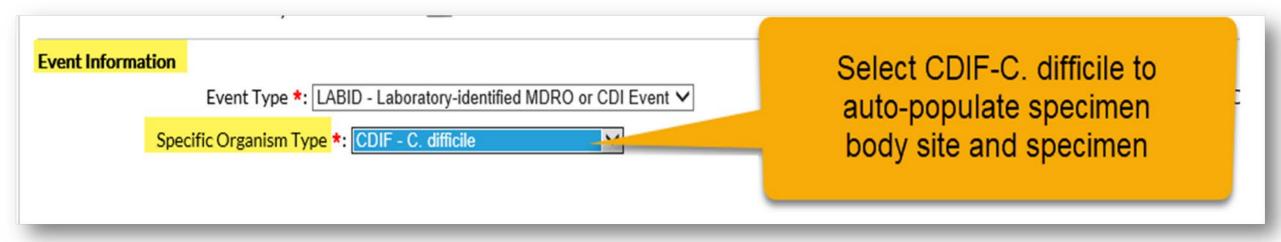

Submitting a CDI LabID Event to NHSN: Event Type and Date Specimen Collected

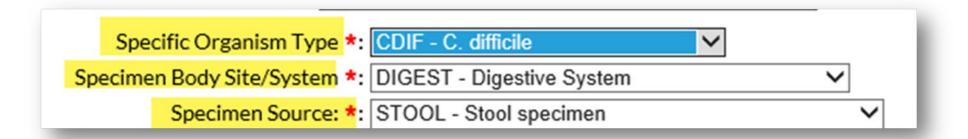

Submitting a CDI LabID Event to NHSN: Specific Organism Type

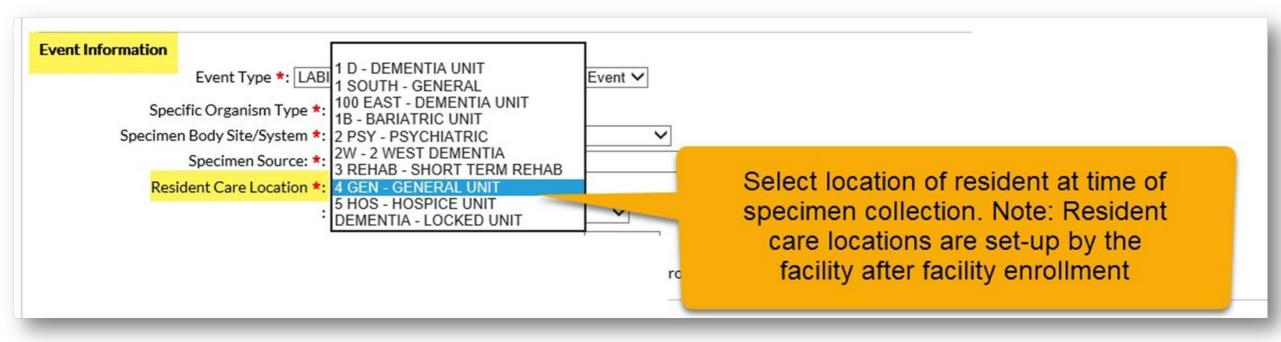

Submitting a CDI LabID Event to NHSN: Specific Organism Type: CDIF- C. difficile

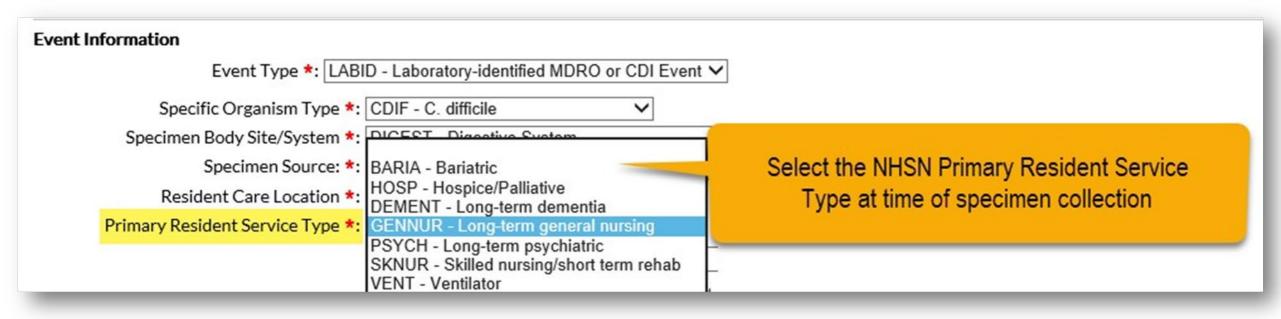

Submitting a CDI LabID Event to NHSN: Resident Care Location

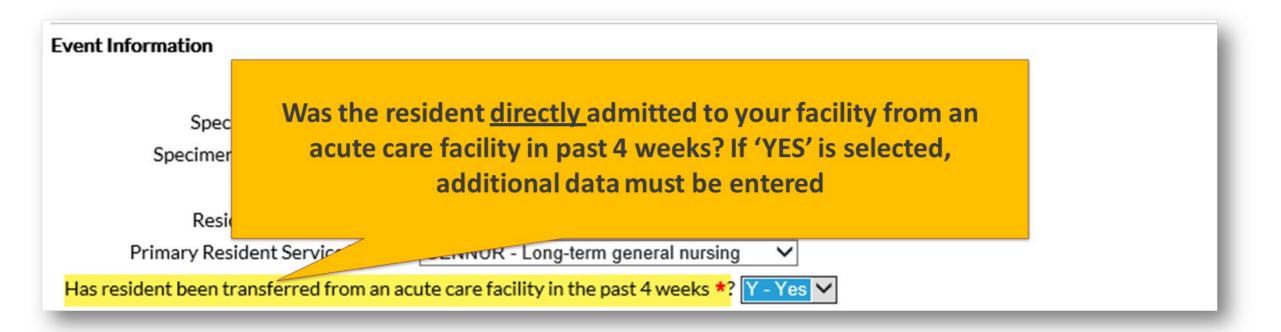

Resident care locations must be setup (mapped) in the NHSN application before reporting events since the event location will be selected during event reporting.

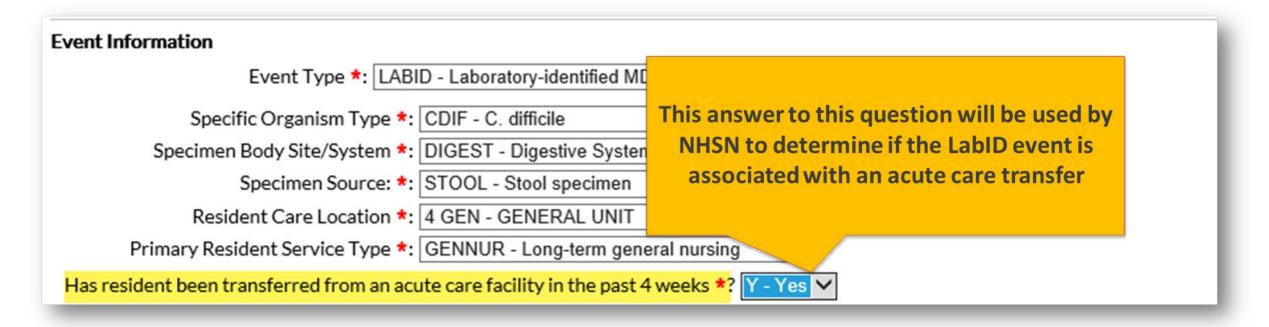

Submitting a CDI LabID Event to NHSN: Primary Service Type

Submitting a CDI LabID Event to NHSN: Transfer from Acute Care Facility

Submitting a CDI LabID Event to NHSN: Transfer from Acute Care Facility, continued

If Yes, date of last transfer from acute care to your facility *:

Submitting a CDI LabID Event to NHSN: Transfer from Acute Care Facility, continued

If Yes, was the resident on antibiotic therapy for this specific organism type at the time of transfer to your facility *?

Informs burden of CDI coming into facility

If YES to this question, this resident should also be included in the monthly summary count for. Number of Admissions on C. diff Treatment

Common Medications Used to Treat *C. difficile*

If Yes, was the resident on antibiotic therapy for this specific organism type at the time of transfer to your facility *? Y - Yes

If resident is admitted on treatment for CDI, you may see one of the below medications in the admission records:

- Vancomycin
- **Fidaxomicin**
- Metronidazole (Flagyl)

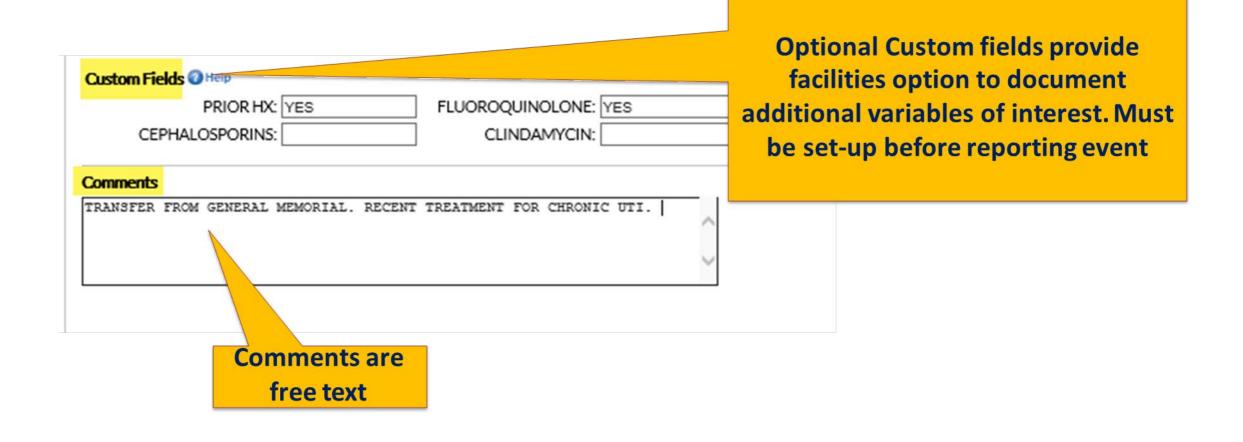

Submitting a CDI LabID Event to NHSN: Documented Evidence of Previous infection.....

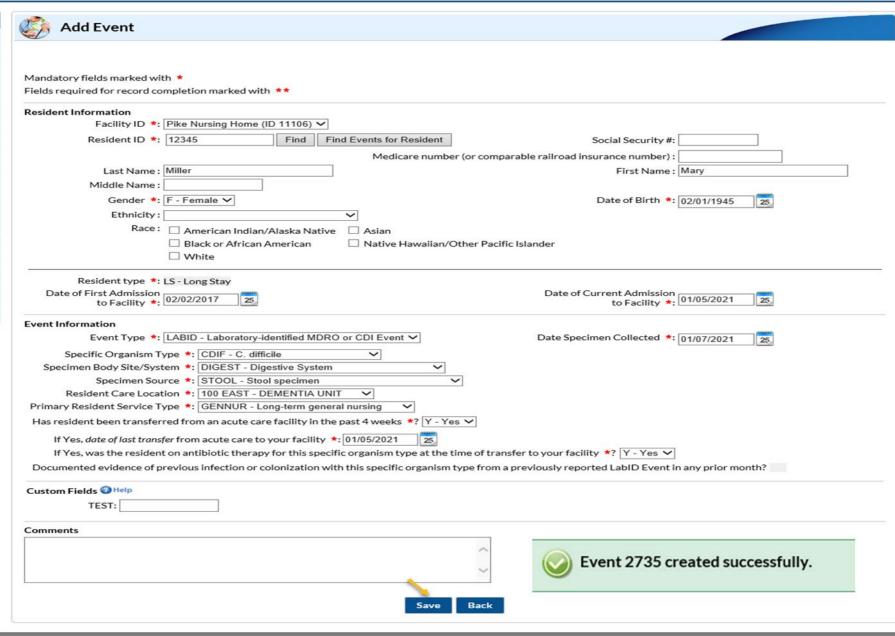

Auto-populated by the NHSN.

Non-editable by users

Submitting a CDI LabID Event to NHSN Optional: Custom Fields and Comments

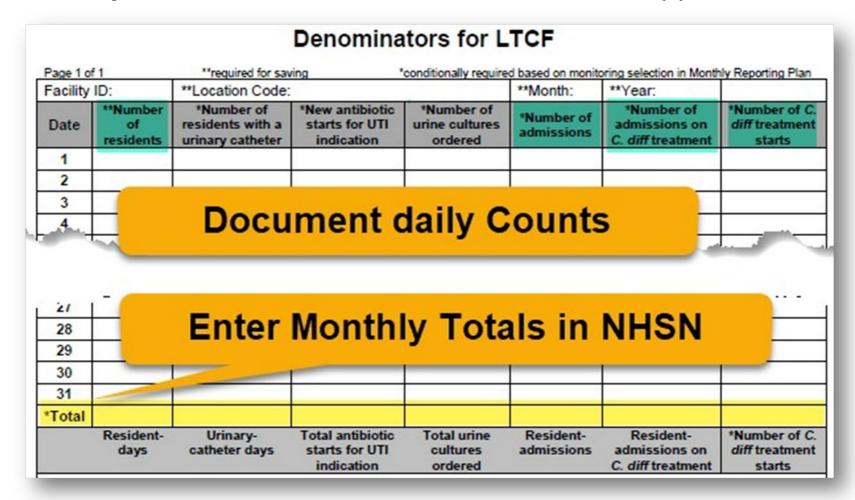

Collect and Submit CDI Monthly Summary Data to NHSN

Monthly Summary Reporting for CDI (Denominator)

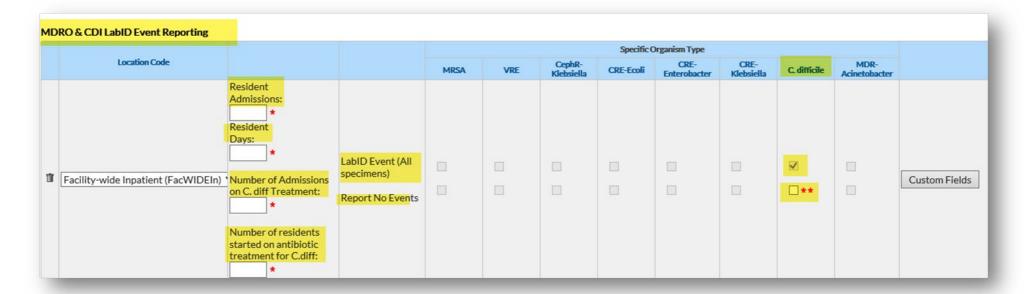

- Optional NHSN worksheet may be used to document daily counts for selected columns.
- Only the monthly totals should be entered into the NHSN application.

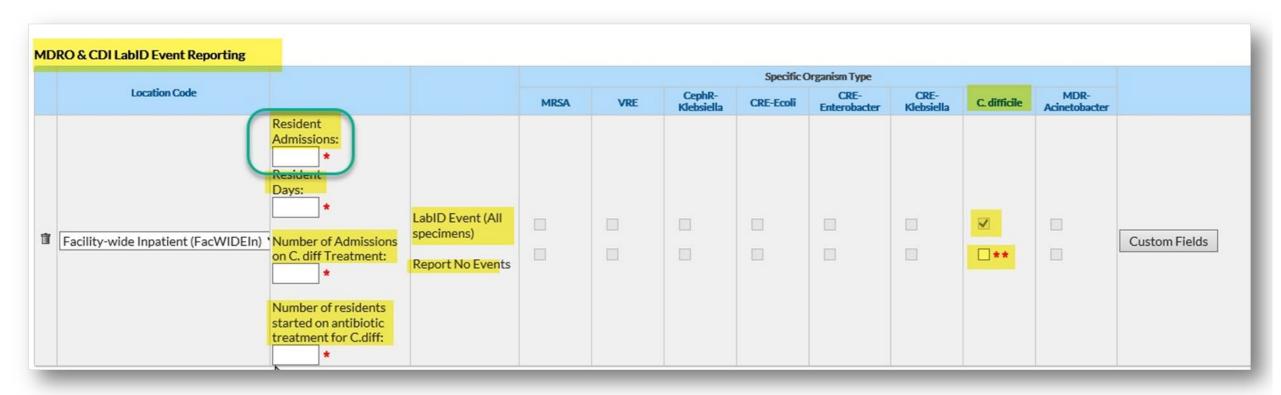

Monthly Summary Requirements for CDI LabID Event Participation

For each month of participation, the facility must report the following:

- Resident Admissions
- Resident Days
- Number of Admissions on C. diff Treatment
- Number of Residents Started on antibiotic Treatment for C. difficile
- Report No Events, if applicable

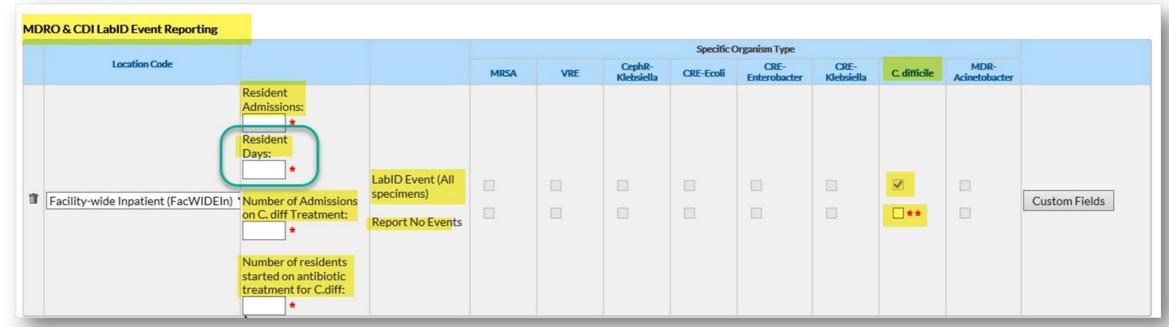

Resident Admissions: The <u>total</u> number of residents admitted to the LTCF during the selected calendar month. Includes new admissions and re-admissions.

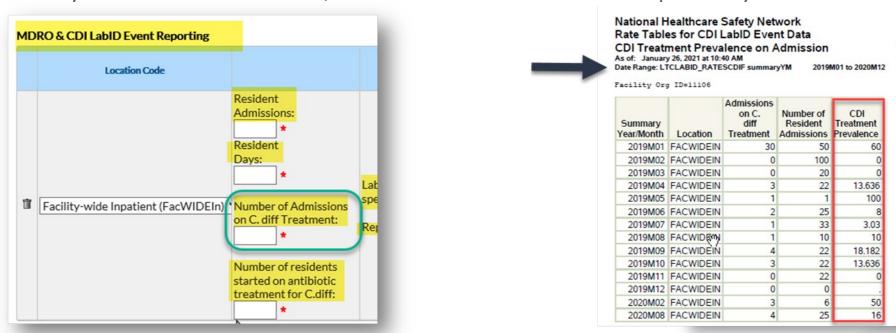

Resident Days: To calculate resident days, for each day of the month, record the total number of residents in the facility. At the end of the month, add the daily counts and enter the total as Resident Days.

- Data may come from electronic medical record, if available.
- Users may also calculate based on facility occupancy.
 - 100 bed facility at 100% occupancy for June: 100 residents x 30 days = 3,000 total resident days
 - 100 bed facility at 90% occupancy for June: 90 residents x 30 days = 2,700 total resident days

Number of Admissions on C. diff Treatment:

- Informs burden of CDI coming into the facility (CDI treatment prevalence).
- Total number of residents who were receiving antibiotic treatment for CDI at the time of admission to the LTCF.
 - Includes new and readmissions.
- This count is independent of CDI LabID Event reporting.
 - A resident may be included in this count, but not have a CDI LabID Event reported by the LTCF.

Number of Residents Started on Antibiotic Treatment for C. diff:

- Informs understanding of CDI management practices (CDI treatment ratio)
- Can inform burden of CDI in the facility
- Captures number of residents started on treatment for CDI that month based on clinical decisions; specifically, residents without a positive *C. difficile* test.
- This count is independent of testing
 - Includes **ALL** residents with an order for treatment, including those not tested <u>and</u> those who were tested, but had negative results. Also includes orders for empiric treatment.

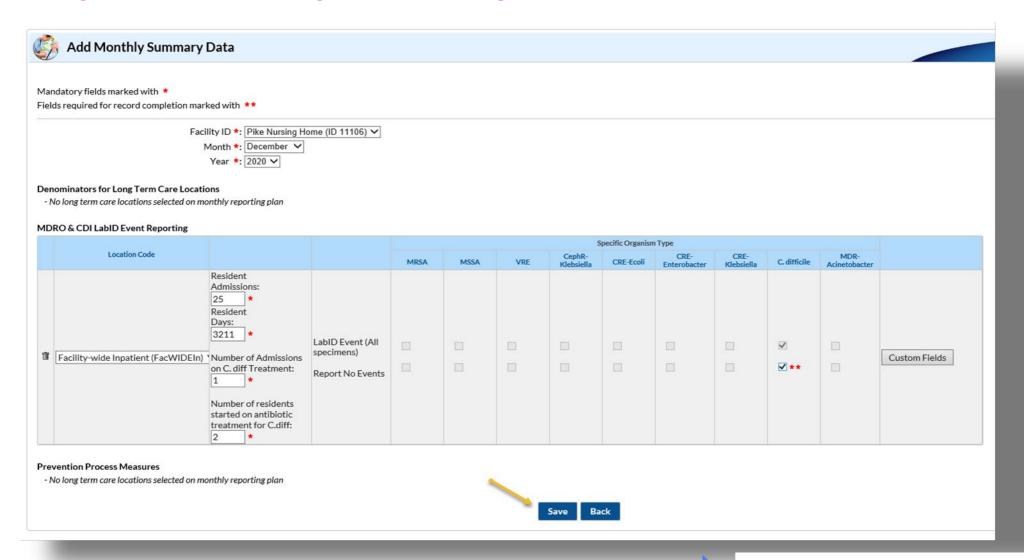

LabID Events (All specimens): A grayed out check-mark will appear for each specific organism type selected for surveillance in the facility's Monthly Reporting Plan.

	Specific Organism Type							
	MRSA	VRE	CephR- Klebsiella	CRE-Ecoli	CRE- Enterobacter	CRE- Klebsiella	C. difficile	MDR- Acinetobacter
								١
LabID Event (All specimens)							Z	3
Report No Events							_ **	
Report No Events								

- Report No Events: A red asterisk will appear next to boxes that require attention.
- The user must put a check-mark in the box to validate that no LabID events were identified for the specified organism and that surveillance was performed for the calendar month.
- The box will be grayed out and without red asterisks if at least one event was submitted for that organism during the calendar month.
- If a LabID event is entered for the organism after summary data submitted, the application will auto-update by unselecting the "Report no Events" box.

	Specific Organism Type								
	MRSA	VRE	CephR- Klebsiella	CRE-Ecoli	CRE- Enterobacter	CRE- Klebsiella	C. difficile	MDR- Acinetobacter
